

Module darkorange -- expression, composition, trajectory, and pathway enrichment, all by cell type

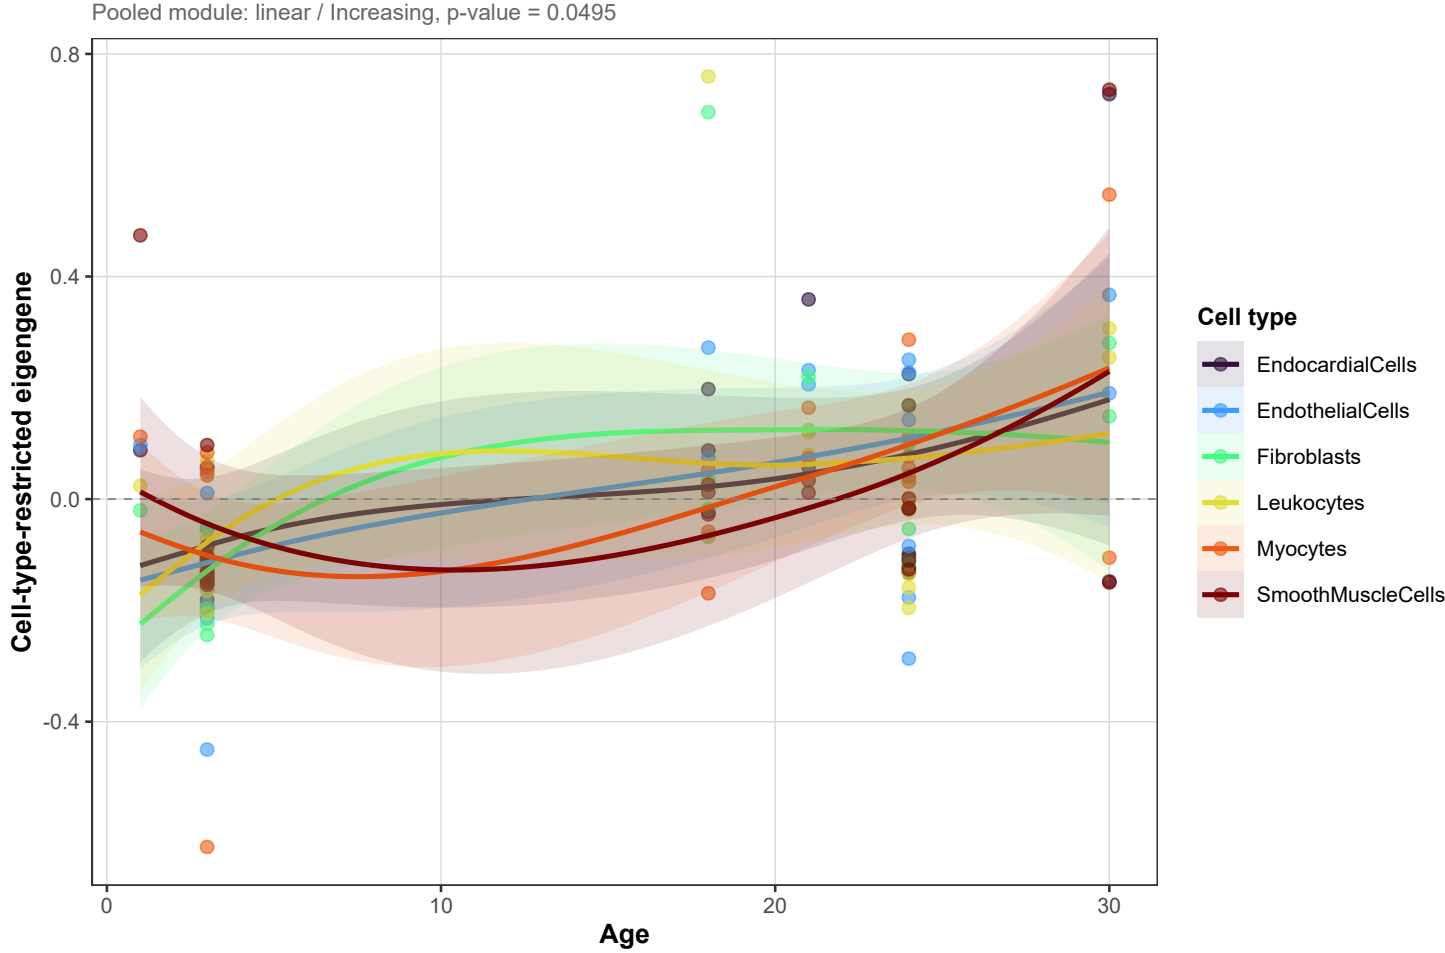

Expression heatmap by cell type

Gene composition

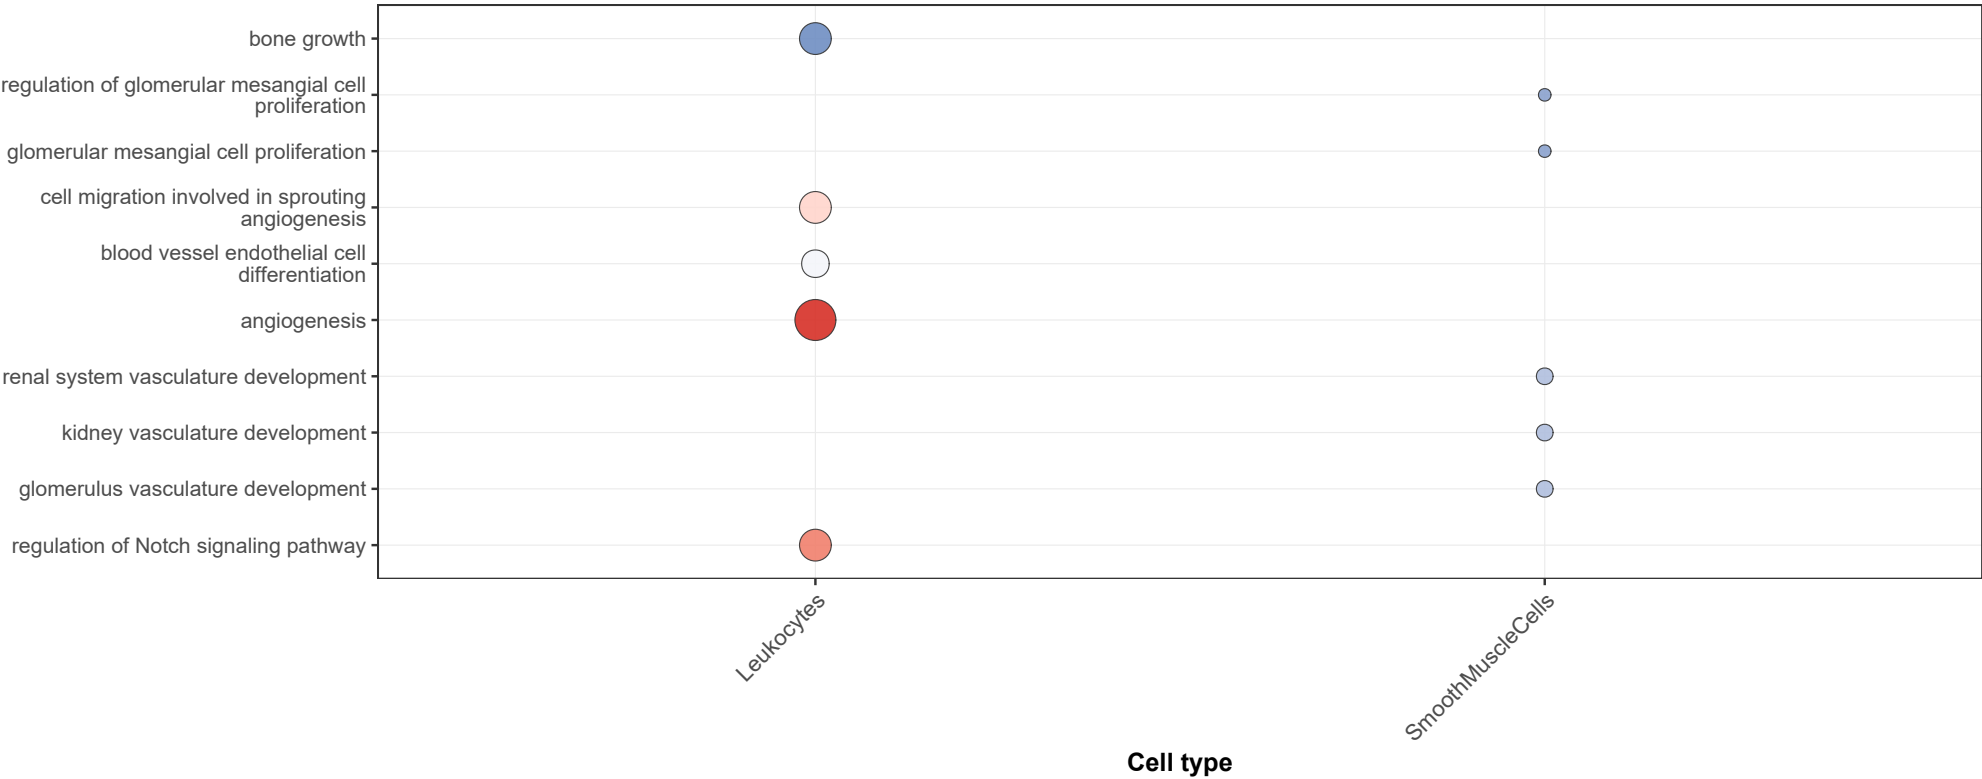

Module darkorange -- trajectory by cell type

GO_BP - Enriched Terms

Size = % of module genes annotated to term (not filtered by significance)

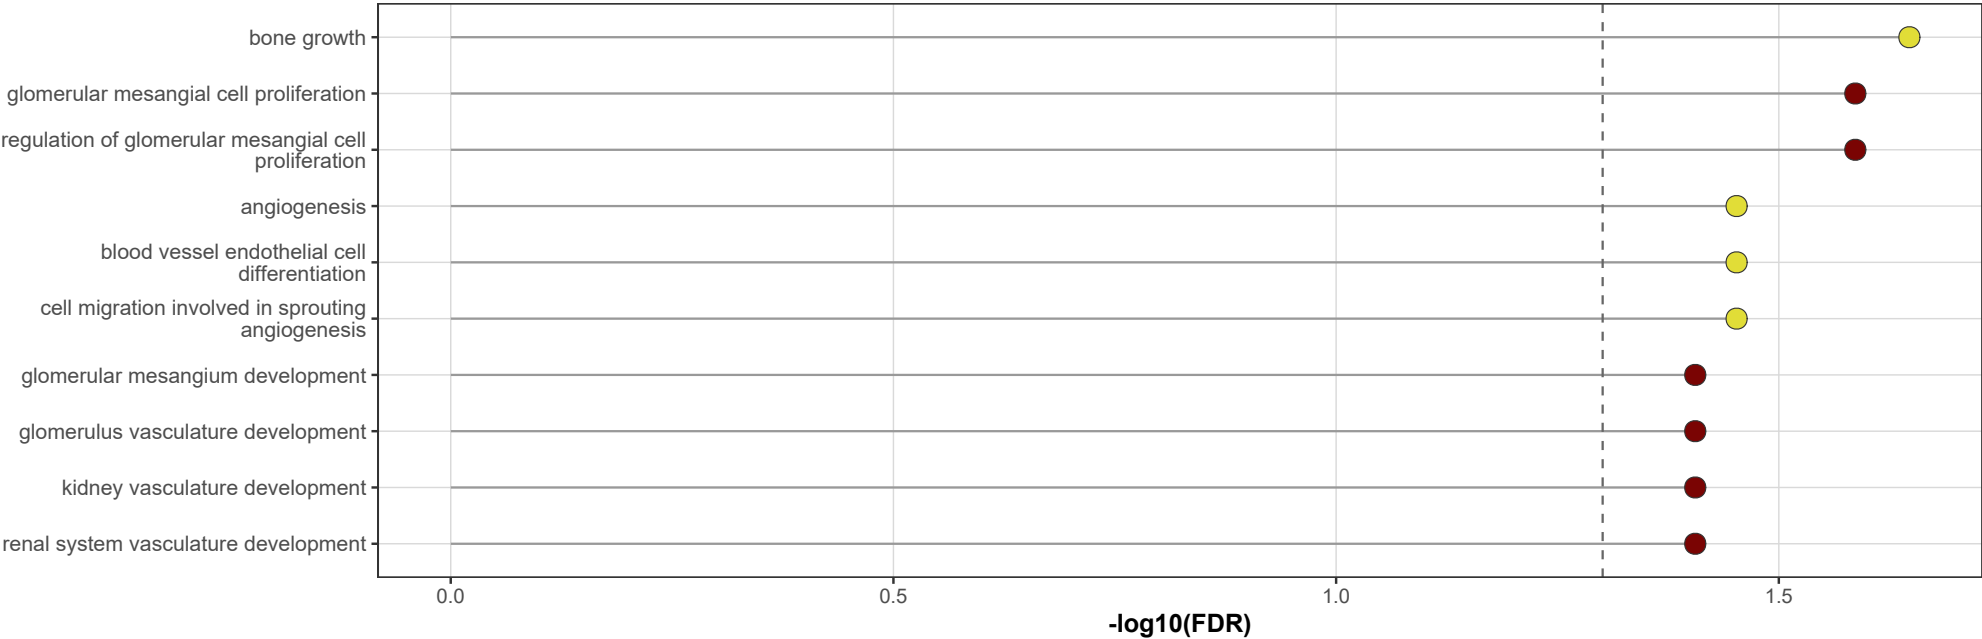

Reactome - Enriched Terms

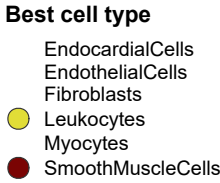

No enrichment terms
for this module/database

GO_BP - Top Significance

Color = cell type with lowest FDR

Reactome - Top Significance

No enrichment terms
for this module/database
